A dwelling house in Cambridge, Mass, formerly owned and occupied by a gentleman named Norris, who, being in the lightning rod business, placed a great number of conductors on various points of the building, was struck by lightning, Friday morning, and considerably shattered.

General Rosecrans, President of the Society of the Army of the Cumberland, has issued an address announcing that it has been determined to erect a colossal bronze equestrian statue of the General George H. Thomas, at Central Park, New york. General Rosecrans letter is dated at San Rafael, Cal., where he now lives.

Now that Foster, the wanton murder of Putnam, is expected to be "communicated" and uitimately pardoned, the energies of that powerful class in New York which is interested in the delivery of all murdierest from justice can be devoted exclusively for a while to Botts, the assassinator of Pet Halsted. They have altered by the did desert, and consorted in for his generosity.

One proposals made to him by projectors of every country and of every find who wished to go to the land that flowell with milk and honey—America, and among the rest litere was one who offered himself to be king. He introduced his proposal to the doctor by letter, which is now in the lands of M. Beumarchais of Paris, stating, first, that, as the Americans had dismissed or sent away their king they would want another; secondly, that he was of a more ancient family than the dukes of Normandy, and of a more honorable descent, his line never having been bastardized; fourthly, that there was already a precedent in England of kings coming out of Normandy. And on these grounds he proved that the doctor neither did this, nor yet sent him an answer, the projector wrote a second letter, in which he did not, it is true, threaten to go over and conquer America. But as the doctor about 230,000 might be made to him for his generosity.
